Greetings!

Spring is in the air and we hope that you're doing well! Below is a list of article titles for [Prostate Cancer News You Can Use](#), in addition to a link to the Us TOO web page that provides access to all of the content. We hope that you find the information helpful.

As you may recall, [I will be retiring on March 31](#) after 11 years as president & CEO of Us TOO. The Us TOO Board of Directors has selected [Chuck Strand to succeed me as CEO](#). Chuck has served in various capacities with this organization over the past six years, including his current position as director of marketing and communications. Given his experience, dedication and impact on the organization, the Board and I are confident that Chuck is the right person to lead Us TOO into the future.

Jim Schraidt, an Us TOO board member and Chicago support group leader, was interviewed for an [article in CURE magazine](#). He shares his experience on the importance of making educated decisions on prostate cancer treatment and the value of attending a support group.

Chuck represented Us TOO at the [ZERO Prostate Cancer Summit](#) in Washington, D.C., on February 22 – 24. Legislative advocacy was focused on personal constituent visits to the offices of congressmen and congresswomen to encourage their [support for securing prostate cancer research funding](#).

We encourage you to support this initiative by contacting your representatives and senators and asking them to sign onto the "Dear Colleague" letters in support of the Prostate Cancer Research Program at the Department of Defense. Funding for the Prostate Cancer Research Program (PCRP) has produced three drugs for advanced prostate cancer in the last five years. [Please CLICK HERE to personalize a form letter to send as an email to your elected officials](#). While a show of force is important, stories are much more impactful than statistics. So personalizing your communication is extremely important!

[Join Us TOO for a free virtual town hall meeting](#), "Understanding

Research and Treatment for Advanced Prostate Cancer,” on Sunday, April 10, at 11:00 a.m. CST. The event is sponsored by Patient Power and hosted by the Robert H. Lurie Cancer Center at Northwestern Hospital in Chicago. [CLICK HERE](#) for registration and more information.
